

Creative Curriculum Challenge 7

Find the Oldest Building (Literacy)

For this challenge you'll be looking closely at the buildings near where you live.

Plymouth was badly damaged by bombing during the Second World War. Many parts of it were completely rebuilt, although some buildings did survive.

Next time you're out for a walk take a look at the buildings around you. Which one do you think is the oldest building? When do you think it was built? What do you think it is used for? Do you think it's ever been used for anything else? What materials do you think it's made from? Draw a picture or take a photograph of the building.

**THE
BOX**

Stretch Challenge

If you were to design a new building, what would it look like? What materials would you use? What would the building be used for?

Once you've completed your challenge, send us a photo theboxlearning@plymouth.gov.uk by the end of Sunday. We'll pick a lucky winner (under 18s only) to receive a bag of goodies from our shop! Make sure you add it to your school home learning book too.
