

Hidden and strange

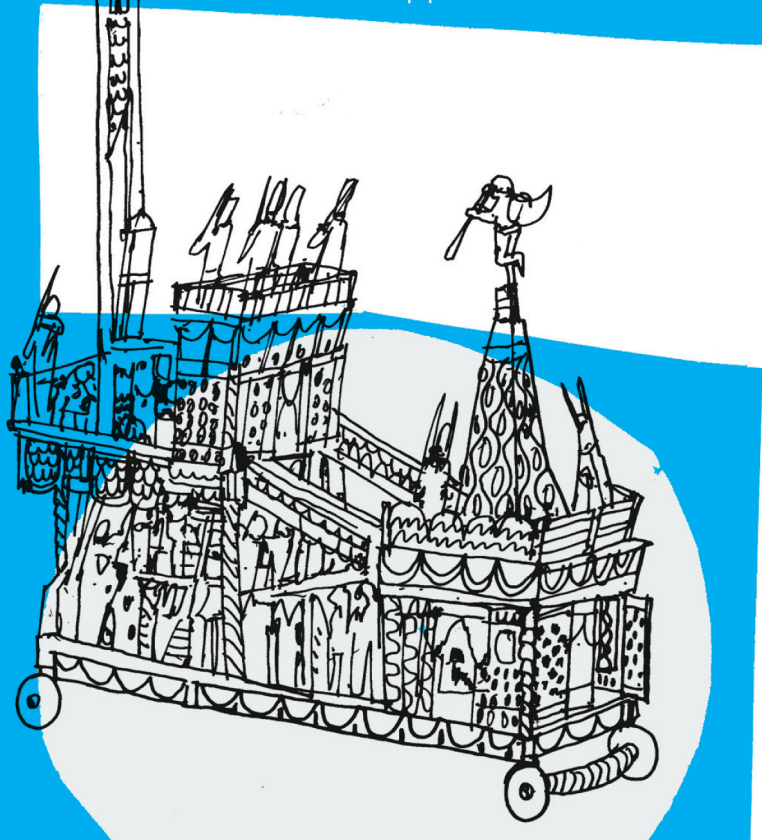

1

Some things are easy to spot in

The Box (ahem, our massive Mammoth), but today we're going to also look for some hidden or strange things. First up - 'strange'.

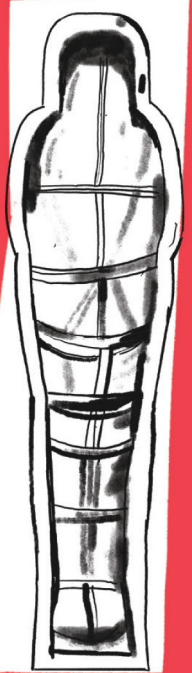

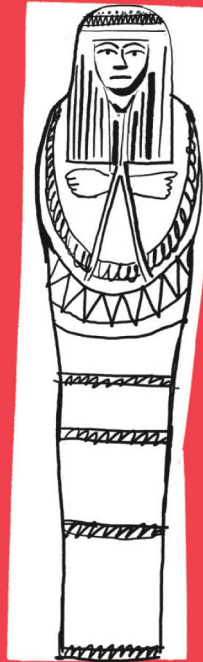

2

Head to **Port of Plymouth** and search for a small guillotine. This model was made from animal bones by Napoleonic prisoners of war. Can you describe what is about to happen? Eww!

3

Go through to **100 Journeys** and find something equally gruesome – can you find an Ancient Egyptian canopic jar and write down what was once inside it? Double-eww!

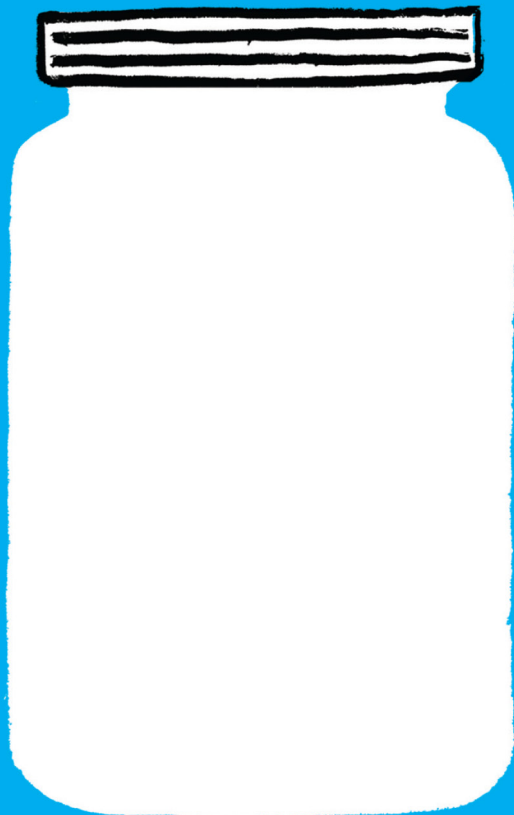

4

Now go to **Mammoth** and find a strange preserved specimen – the strangest one we could find is the anglerfish! Can you draw a strange specimen here?

ANGLER OR FISHING PRO:
Lophius piscatorius.

# 5

On your way upstairs, can you spot two lions  
hiding in **North Hall?**

Can you find them and draw them?

Supported using public funding by  
**ARTS COUNCIL  
ENGLAND**
