

TOP SECRET

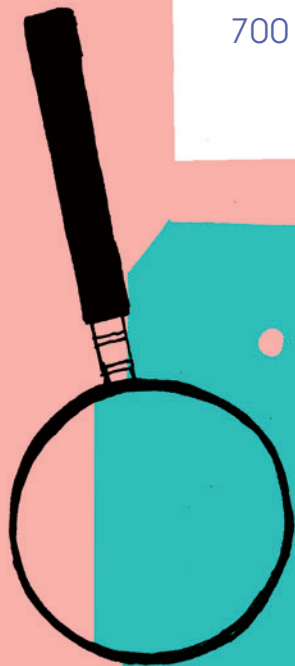

**Where
Have They
All Gone?**

We need your help.

Some of our favourite objects have disappeared from our records - can you work together to solve the mystery by visiting each gallery to search for them? If you and your family do just one lap around our whole site you'll have each walked over 700 metres.

2

First we need to test your skills.

Before you head to the galleries, there are two things we need you to find that are not that easy to spot. One is outside, one is inside...

A - the date that St Luke's was built

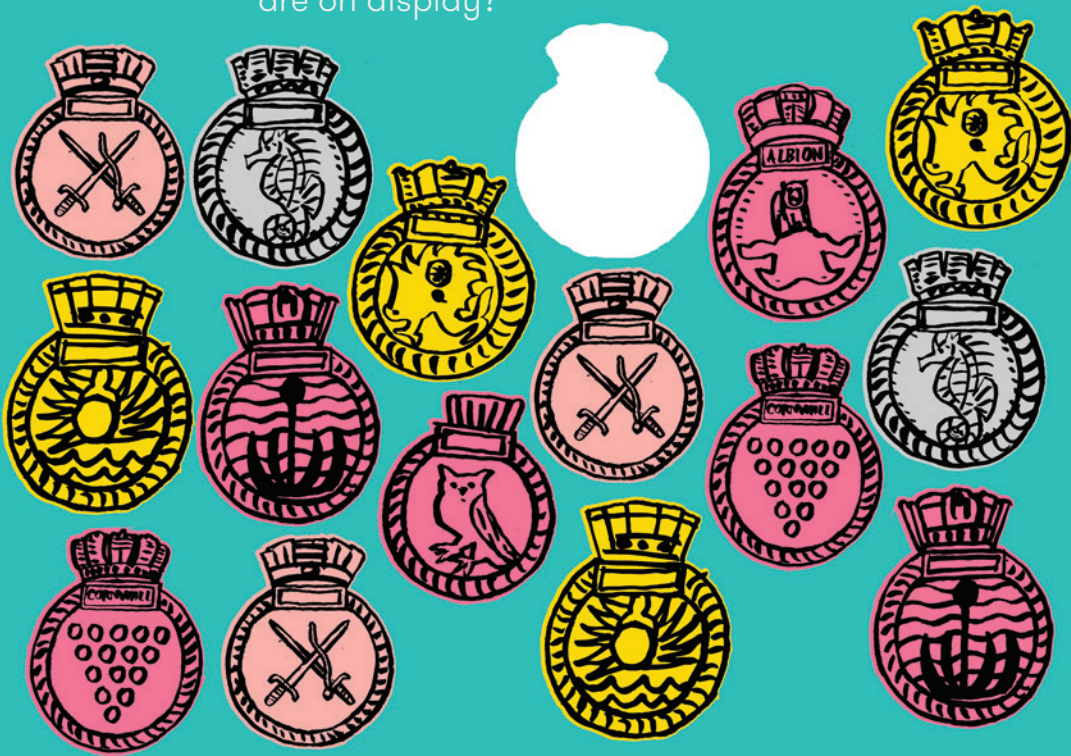

B - a 'scar' on an old wall that used to be our old toilet roof

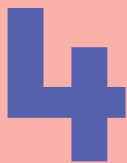

3

You're doing really well – keep going!

In the **South Hall** can you find the ship's badges?
Let's test those counting skills of yours – how many
are on display?

Head through to our North Hall.

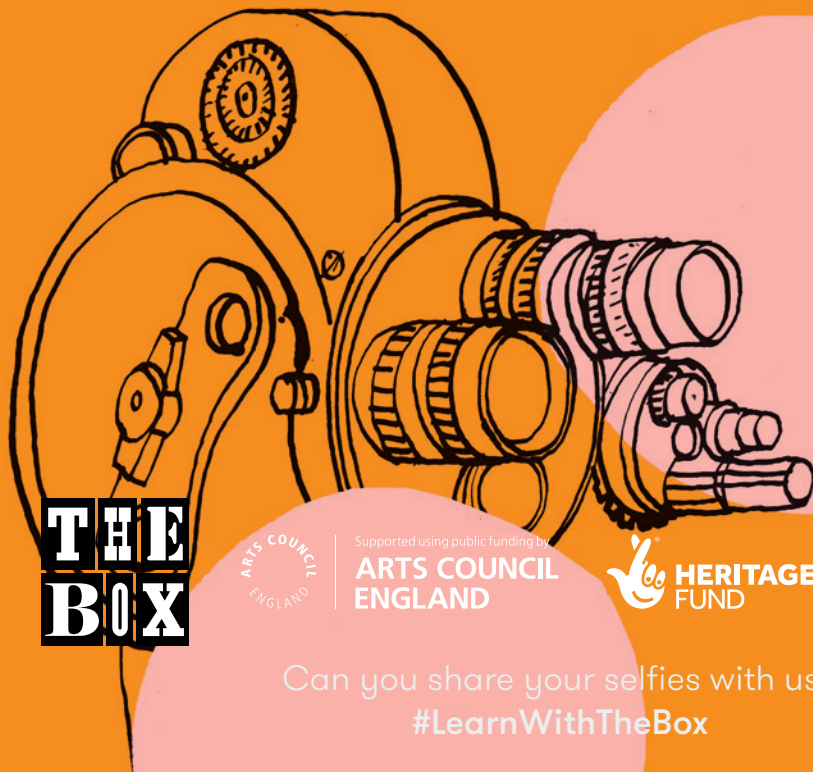

From here you'll notice lots of different galleries (there are even more upstairs).

We still need to test your spotting skills - can you find and draw a very old piece of ceiling, hanging from the actual ceiling?

5

Your training is nearly over.

Just one more thing though – when you're exploring the galleries, be sure to take lots of photographs. To complete the training, we need to know you've visited every gallery today.
